FREPA Second Annual Sunshine State Renewable Energy Expo to be Held in Tallahassee

Tallahassee - The Florida Renewable Energy Producers Association (FREPA) announces its second annual Sunshine State Renewable Energy Expo symposium, renewable energy exhibit and reception will be held at the Mary Brogan Museum in Tallahassee on March 11, 2009.

The Florida Renewable Energy Producers Association (FREPA) is an organization dedicated to advocating on behalf of all current and potential renewable energy developers, entrepreneurs and producers with interest in renewable energy business project development in Florida. FREPA's main objective is to continue to be the voice of renewable energy development in Florida by advocating for needed incentives, a favorable regulatory environment, project funding and programs that promote research and spur growth in the use of renewable energy sources in Florida. We are also a source of up-to-date information on what is occurring in the energy industry as it relates to renewable energy concerns in Florida and the nation. "FREPA is the reliable and educated voice on behalf of renewable energy developers in Florida," said Michael Dobson, FREPA President/CEO.

Through FREPA, the Sunshine State Renewable Energy Expo event will provide students, renewable energy entrepreneurs, investors, the Tallahassee community and policy makers a view of what renewable energy projects are being pursued in Florida, the promise of the renewable energy industry in Florida as communicated by our business community, education about Florida renewable technologies and an overview of policy opportunities for the renewable energy industry before the legislature and in congress. The event will also coincide with a previously planned renewable energy exhibit at the Mary Brogan Museum.

This event will provide Floridians and policy makers a succinct view of the opportunities for more renewable energy in Florida, present a road map for the tremendous economic development opportunities in clean industry through renewables and will celebrate the commitment our leaders have made to make Florida green. Please visit www.floridaenergyproducers.com for more info about FREPA; the event website is www.sunshinestateenergyexpo.com.
